

TOOL.BAG TEX.223

PRACTICAL, RELIABLE AND FLEXIBLE

The **tool.bag TEX.223** offers plenty of space for tools and accessories.

The solution can be perfectly expanded with modular additions: Various modules such as a hammer holder, screw pocket and tool pocket provide additional storage space and can be attached to the tool bag or tool belt thanks to the Fidlock magnetic system.

With the **tool.module belt** and the **tool.modules**, the tradesman has the essentials at hand and his hands free on the job site. Thanks to the magnetic fidlock system, the modules can be attached and removed quickly. In this way, the practical tool bag meets all individual requirements.

TOOL.BAG TEX.223

VERSATILE MODULES

The perfect complement to the **tool.bag TEX.223**, various modules help the craftsman to keep the right tool within easy reach on the belt or safely stored in the tool bag. The individual modules are quickly attached using the Fidlock magnetic system.

tool.module belt

Keep the essentials close at hand: The belt allows you to carry and change modules using the Fidlock system.

tool.module magnetic

The magnetic back allows screws, bits and other magnetic tools to be used.

tool.module zipperbag

This is where you can store your smartphone, wallet and other important items.

tool.module universal

Whether you need screws, nails or bits, there is plenty of storage space to keep your tools at the ready.

tool.module pocket

The storage compartment holds 3 tools such as a screwdriver or pliers.

tool.module hammer

Large or small, the sturdy holder can be used for all common hammers.
